Other comments (not part of official survey):

<ul style="list-style-type: none"> - please provide a “doggie beach” and a green space “off-leash” dog play area - thanks for E&N Trail. I support trail development and beach access - probably don’t use trails because don’t know where they are - Tidesmen is not “choir” it is Barbershop Chorus. It appears to have been lumped into Girl Guides heading. - would use tennis court if net was right. - may pay more for programs depending on quality of program. - need a water fountain in Huddleston Park. - would only participate in activities offered during weekends or evenings. - only use Lantzville facilities occasionally. - would like more waterfront development.
