Knarston Creek Construction Update

Construction of the Knarston Creek Overflow project is well underway and construction is presently on schedule. We would like to take this opportunity to notify the community that **significant traffic pattern changes** are anticipated during this time of construction, specifically that portion of Lantzville Road between Benwaldun and Shangri-la Roads. Individuals who find they travel this portion of the roadway are encouraged to proceed slowly and with caution, respecting both the traffic control signage and personnel on-site. Further, we would also like to advise the community that construction will see that portion of Lantzville Road, again, between Benwaldun and Shangri-la Roads closed to all traffic, albeit temporarily, towards the end of September. Staff of the District, the District's engineers and the contractor will define an alternate route and will make every effort to minimize this closure and the impact it may have on the residents in the area. Please visit the District's website at www.lantzville.ca for updates or telephone the District office at 250.390.4006. We thank you in advance for your cooperation and patience.
