District to Receive a Defibrillator

To help save lives, the Heart and Stroke Foundation is placing Automated External Defibrillators (AEDs) in municipal venues like recreation centres, pools and arenas across the Province where there is an increased risk someone could suffer a cardiac arrest. Through its Public Access to Defibrillation (PAD) Program, the Foundation is donating one AED to the District of Lantzville. We are pleased to advise that Lantzville's AED will be located at Costin Hall.

AEDs are safe and designed so that anyone can use one if they see someone suffering from sudden cardiac arrest. Still, we know people are more likely to use an AED if they are familiar with the equipment so the Foundation has partnered with BC Ambulance paramedics and other medical service providers to conduct an orientation session at each location an AED is placed.

Our local resident, volunteer fire fighter, paramedic and RCMP member Martin Kortas will be leading a group of approximately 12 individuals through the orientation session. We thank Martin Kortas for donating his time to this important initiative and we are extremely pleased to have one of these lifesaving devices located in our community.

Remembrance Day Ceremony

Monday, November 11th

Parade 10:30 am – Lantzville Road, Slegg Lumber to Cenotaph (Legion)

Ceremony 11:00 am – Cenotaph (Legion, 7225 Lantzville Road)

Did You Know

The Poppy is the international symbol of remembrance representing a visual pledge to pay homage to the fallen, who gave the ultimate sacrifice for the preservation of peace and freedom.

Lest We Forget

Remembrance Day Road Closure

Council has approved the closure of a portion of Lantzville Road to allow for a parade and ceremony to be held on Monday, November 11th, as follows:

Where: The portion of Lantzville Road between Slegg Lumber and the Cenotaph.

When: 10:15 am to 11:30 am.

The District of Lantzville thanks you for your cooperation during this yearly community event.

When it Snows in Lantzville

Parking When It Snows

In preparation for winter weather, the District's Public Works Department is requesting that during times of snow if residents are unable to park in their own driveways, that they park on the south side of the road (if possible) and as far onto the shoulder as possible. This will allow our snow plows to maneuver along the roads and provide better service to our neighbourhoods. Thank you!

Clearing of Driveway Culverts

To avoid potential flooding, the District requests that residents check their driveway culverts to ensure they are clear of any obstruction that may cause a blockage. The District greatly appreciates your cooperation.

Stage 1 Water Restrictions

Restrictions are as follows:

- **Odd house numbers** may water on odd numbered days
- **Even house numbers** may water on even numbered days
- Watering is restricted to a **maximum of 3 hours per designated day** and only permitted **between the hours of 6:00 am to 10:00 am or 6:00 pm to 10:00 pm.**

Please note that watering restrictions only apply to those property owners who are on the District's community water system. However, we also encourage those with private wells to exercise water conservation.

Ware Road Trail Extension is Open!

Mayor, Council and the Parks and Recreation Commission are pleased to announce that the newest section of trail in Lantzville is open for use. The extension runs from the west end of Peterson Road to Ware Road at the highway intersection.

Green Bin Program Refresher - Materials accepted in the Green Bin

More than 20 types of organic materials are accepted in the green bin, including many items unsuitable for home composting. If you already compost, you will find the green bin works to further reduce your household waste. The Green Bin Program is not intended to replace home composting but to enhance diversion from the landfill that composting organic waste can offer. You should continue to compost at home. The green bin will take materials that don't compost well at home. It takes composting to a new level - Beyond Composting.

Green Bin Acceptable

Food leftovers, plate scrapings

- Meat, fish, poultry and bones
- Fruit and vegetable scraps
- Dairy products, butter, mayonnaise
- Egg shells
- Bread, cereal, grains
- Pasta, rice, pizza
- Baked goods, candies
