Village Commercial Core Improvement Plan – Under Construction!

The Village Commercial Core Improvement Plan continues to develop – through the collaboration of a committee of residents and stakeholders as well as staff. In January, residents provided input at an evening event exploring building and streetscape character preferences. In late February, a design workshop was held, and the Committee drafted two potential concepts for streetscape upgrades and pedestrian improvements. These concepts, and some of the other ideas that were captured at that workshop, are available at www.lantzville.ca. Since then, staff and the Committee have been working on drafting the broader plan, which will provide smaller and larger improvement project priorities and include a policy framework to guide future development within the commercial core area. Key areas include circulation, form and character, gathering places, and beautification. Following the completion of the draft, staff and the Committee looks forward to bringing the proposed plan forward for community feedback, leading to a recommendation to Council. Committee meetings are open to the public, and the Committee welcomes your ideas for enhancing the commercial core. To share ideas, or inquire about meeting dates and times, contact the Community Planner at meredith@lantzville.ca or 250.390.4006.

Toilet Rebate Program

Council resolved to continue the Toilet Rebate Program to reduce water consumption! Visit the District website or office for the brochure detailing how residents or property owners connected to the community water system can apply for a rebate for replacing up to two toilets with new low flush or dual flush models.

Bylaw Reminders

Fireworks Restrictions – Permit Reminder – A permit from the District Office and approved by the Fire Chief, is required *before* fireworks can be discharged. Fire crackers are not permitted at any time.

Open Burning – Open burning (fire piles on the ground) is not permitted within the District limits from May 15th to October 15th. Incinerator use is permitted at this time but could be closed at any time, as conditions dictate. Rules apply to incinerator use, including obtaining a free permit at the District Office *before* burning, burning limited to Fridays and Saturdays from dawn to dusk only, etc. *Note: Incinerators must be screened with a mesh no greater than approximately 1 inch and should always be burned as hot as possible. This helps to reduce smoke and ash.* Permits are subject to cancellation due to safety hazard, non-compliance, or wind conditions. For more details view the Fire Protection Services Bylaws at www.lantzville.ca.
